

Texthelp - Read&Write Gold

Read&Write flexible literacy full software solution can help readers and writers--including individuals with learning disabilities and English Language Learners--access support tools needed to reach their potential, build confidence and independence, and succeed. Read&Write assists with reading, writing, studying, and research.

Read&Write will read highlighted text on the screen and is compatible with **Adobe Acrobat/Reader and Microsoft Word**. The easy-to-use toolbar makes documents, files and Web pages more accessible. From hearing, emails or documents read out loud to text prediction, picture dictionaries and summary highlighters, [Read&Write](#) makes lots of everyday literacy tasks simpler, quicker and more accurate.”

Read&Write is available at no charge to all Highline students, faculty, and staff.

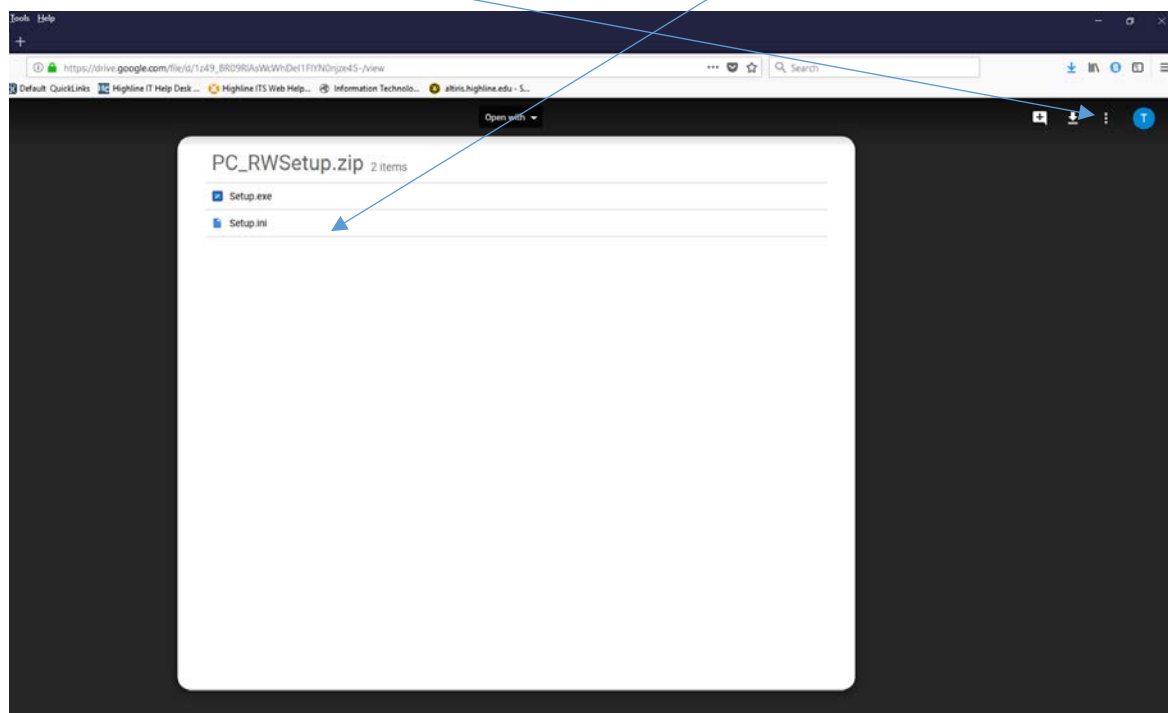

Read&Write is available for Windows and can be installed on home machines.

The Mac Read&WriteGold version has security issues that needs addressing by the vendor and will be available if the security issues are fixed. ITS recommends using the Mac [built-in accessibility features](#).

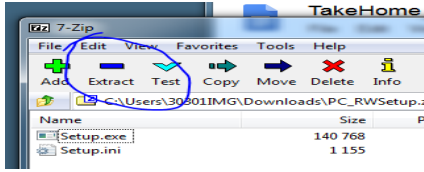

[Install Read&Write Windows Take Home \(PC\)](#)

Note: You may want to print this document to have on hand, as you install the files.
